NEW YORK

ENGINEERING NEWS-RECORD

INDEX TO VOLUME LXXXI

July 1 to December 31, 1918

PAGES

July 4	1	to	64
July 11	64	to	108
July 18	109	to	156
July 25	157	to	200
August 1	205	to	251
August 8	253	to	296
August 15	297	to	342
August 22	343	to	384
August 29	385	to	429
September 5	431	to	474
September 12	475	to	518
September 19	519	to	563
September 26	563	to	606
October 3	607	to	650
October 10	651	to	694
October 17	695	to	738
October 24	739	to	783
October 31	785	to	826
November 7	829	to	875
November 14	877	to	920
November 21	921	to	964
November 28	965	to	1008
December 5	1009	to	1052
December 12	1053	to	1101
December 19	1105	to	1153
December 26	1155	to	1204

A

Abrams, D. A., on "batch a minute" concrete tests ..... Page e966

ACCIDENT PREVENTION

Accident prevention e565, n600
Company officers responsible e829
Safety congress n337
Split hose protects workmen from trolley wires h*732
Unwarranted accident waste in construction e298
Accidents, trained nurse and field hospital for, reduce labor turnover h54
Provide repair materials for, in war time e739, *761
(See also Welfare work)
Adams, Thomas, on city planning as related to safety 572
On housing and reconstruction n1103

ACCOUNTING

Costs are not trade secrets to be concealed h1196
Miami Conservancy District expenditures shown by mnemonics symbols. h865
Miami Conservancy field record card a perpetual stock inventory h912
Railroad Engineering Budget Committee created 23
Aeronautics, united service in, promises better results e431, n468
Agreement among engineering societies on broadening scope e1156

AIRPLANES

Balloon shed built by Amer. engineers on French beet sugar field (R. K. Tomlin, Jr.) *29
Spruce the preferred wood for parts n266
Spruce, rush orders for (N. A. Bowers) *1023
Trucks and plank roads to get out spruce for *1164
Allegheny Bridge plan approved n1200
Allegheny River continuous span bridge ... e346
America first in world's export trade 62
American Bridge Co. 6
Amer. Bureau of Shipping 8
American cities are meeting war problems, how 33
A. E. R. A. will vote on resolution to promote public ownership of electric railways e922
Amer. Inst. of Mining Engineers, Colorado Convention 601
American International Corporation 73
Amer. International Shipbuilding Corp. .5, 6, 54, *77
Amer. Red Cross uses motor cars in France n15
Amer. Soc. of Civil Engineers 464
Joint discussion with Amer. Soc. of Mech. Engineers e829
Problems of development (G. S. Williams) 1018, n1045
Task of Development Committee ... e651, 658, *688
Amer. Soc. of Mechanical Engineers .....
Hears H. T. Gantt on reducing machinery idleness *450
Joint discussion of steel problem with Amer. Soc. of Civil Engineers e829
Organized for reconstruction (Calvin W. Rice) 1954
Amer. Soc. for Municipal Improvements jubilee convention n686
Amer. Soc. for Testing Materials e2, 45, 50
Americanization (C. H. Paull) 140
Andrews, George C. on Buffalo water waste survey 1033

APPLIANCES—INSTRUMENTS—PARTS

Aerisostat *1126
Brakes, crane 941
Broomed heads of bull points trimmed .. h731
Bucket, new type of L. F. Hastings, for cleaning city catch basins n*383
Cable excavator and grab bucket .. *804, 821
Cement gun coats rusting steel chimneys in Pittsburgh h*596
Clamp, extension to draw shaft keys. h*243
Concrete mixer, three-stage proposed (F. B. Walker) 1*595
Concrete pavement finishing bridge lengthened h*418
Cranes *937
Cranes, semi gantry, in shipyard *839
Derrick, steel-guyed, to place huge truss h*553
Deval rattler for stone testing 53
Draglines in Miami River work 814
Drain pipe and tin bucket make iceless refrigerator (H. H. Rupe) h*332
Drills for quarrying *929
Electric lamps show location of cableway bucket *804, h821
Feeding mixer with screw conveyor for pulverized coal n*693
Filter rate controllers, home-made *870
Gage to measure pavement surface irregularities (W. M. Kinney) *708
Gate valves for reservoir dams *880
Lever and chain bind lumber on push car h*195
Machine bends pipe without heat h*828
Manifolds with 45 deg. taps h821
Milwaukee adopts sheet metal dippers for snow removal *857
Multiple punch for ship plate work *6
New road finishing machine of E. G. Carr n*383
Notched trestles hold stringers for bulkhead plates h*956
Ore cars on flat-cars charge paving mixer h1197
Pretense of tool record reduces loss of tools h820
Preserve equipment values e830, *836
Puncher, drill, compact steel n*62
Ram of pipe filled with concrete to tamp trenches h*419
Recording device for elapsed time on motor trucks n*694
Sanding device on street sweeper in San Francisco n*606
Self-feeding loader eliminates stone shoveling of concrete work h1197
Separator for compressed air n*203
Spouting hopper and derrick for concrete slab casting (G. B. Klopp) h*774
Steam shovel crews never changed, costs cut (C. S. H.) h685
Stone chip spreader for road repair *982
Stucco gun used on large construction work n*474
Sweeper sprinkler attachment for motor truck n1204
Tagline rig gives direct pull and eliminates fouling h*417
Templet with cutting edges for paving work h*465
Transit built mostly of wood (W. G. Peters) 1*283
Tree branch makes handle for engineer's tape (A. J. Cahen) h*418
Truck with automatic dumping device .. h*251
Turbine reduction gears 961
Water gages *32
Water level automatic recording gages .. 669
Wheelbarrows reduce labor force h912
Wire lath fireproofed by baking on terra cotta blocks n*341

Aqueduct on Erie canal demolished (J. G. Palmer) *789
Areas measured with planetable and planimeter (E. P. Arneson) 1 864
Argentine railways offer market for equipment n1204
Asphalt consistency should be standardized (J. R. Draney) a686
Assessments for benefits, city revenue from, e1

B

Babcock, C. E. P., on asphalt repair records in Buffalo a664
(See also 686)
Babcock, Dudley P., on costs of bituminous and waterbound macadam *87
Bailey, Frank S., on submerged curved area of Reinsch wurl screen *767
Bailey, S. M., on war time repairs as basis of sewer reconstruction *859
Baker, Charles W., on elimination of idleness by systematic study *450
On the engineering of half a century 274
Baker, M. N., on garbage collection and disposal under war conditions 715
On needed reforms in N. J. Dept. of Health methods n1100
Baltimore, enlarged limits (J. W. Shirley) *570
Baltimore Imhoff sewage tanks (Operator) (T. D. Pitts) 1 374
Banking and railroad types of mind e831
(See also 651)
Barcelona free port facilities extended to America 1008
Barge fleet for Mississippi River under contract 621
Bartholomew, Harland, on city planning as related to safety 572
Bass, Frederic, on broadening engineering education 582
Bathon, Wingrove, on pooling sand, gravel and stone industries n382
On senate bills to promote reconstruction n867
Battery, Storage, electric tractor and mobile crane operated by n*738
Beckwith, Charles S., on use of sewage to kill filter flies 533
Benches, low, prevent stooping and speed up work in Chicago h*54
Benedict, Ralph R., on patrolling Kansas City boulevards *408
Berlin or Bust e385, 421
Best, B. G., on cleaning of cement sacks .. h*193
Biggs, George, on steam shovel for shallow excavation h*685
Bill for $1,000,000,000 highway bond issue proposed n1198
Blakslee, James I., on three ways of meeting cost of good roads a1146
Bolt and rivet reclamation in shipyard .. h*1044
Bonus system, extra pay slip each day h375
(See also 244)

BOOKS

American City Progress and the Law (Howard L. McBain) 140
American Cities, Their Method of Business (A. B. Gilbert) 952
Amer. Engineers Behind the Battle Lines in France (R. K. Tomlin, Jr.) 1139
Concrete Engineers' Handbook (G. A. Hool, N. C. Johnson) 1137
Elements of Sanitary Engineering (Mansfield Merriman) 139
Ethics of Contracting and the Stabilizing of Profits (F. W. Lord) 726
Fuel Economy in Boiler Rooms (C. H. Bromley) 727
Handbook of Mathematics for Engineers (E. V. Huntington) 549
Handbook of Mechanical and Electrical Cost Data (H. P. Gillette, R. T. Dana) 1138
Health and the State (W. A. Brand) 1139
Heating and Ventilation (John R. Allen) 727
History of Statistics (John Koren) 1139
Mine Tracks, Location and Construction (J. McCrystle) 952
Mining Engineers' Handbook (Robert Peele) 726
Modern Management Applied to Construction (D. J. Haner) 726
Modern Shipbuilding Terms (F. Forrest Pease) 1139
Motor Truck As Aid to Business Profits (S. V. Norton) 952
Municipal House Cleaning (W. P. Capes) 1138
Our National Forests (R. H. D. Boerker) 1139
Port and Terminal Problem of Today (R. S. MacElwee) 549
Progress Report on water run-off 1139
Relief from Floods (Alvord and Burdick) 326
Rural Water Supplies and Their Purification (A. C. Houston) 727
Sewage Disposal in Kansas (Veatch, Evans and Jackson, with State Board of Health) 549
Stream Pollution (Montgomery and Phelps) 549
Studies of Municipal Problems (Munic. Ref. Library, N. Y. City) 327
Study of Engineering Education (Charles R. Mann) 953
(See also 955)
Tests of Large Bridge Columns (J. H. Griffith) 327
Tests of Small Telescopes at Laboratory of Dominion Land Surveys (E. Deville) 327
War-time Control of Industry (H. L. Gray) 1138
Water Rights, Determination from an Engineering Standpoint (J. M. Whitman) 547
Boston Transit Commission ceases to be e344, n378
Bowers, Nathan A., on airplane spruce ... *1023
Brass cracking discussed by Amer. Soc. for Testing Materials 132
Breakwater, concrete, new type, at Racine (Wis.) *258, h*287
Breed, H. Eltinge, on highways and truck loads e965, 975
Breed, H. Eltinge, on license fees for motor vehicles and drivers 1117
Brewer, A. F., on unit costs for setting water meters 366

BRIDGES

Abutment unwatered by siphon in the Philippines (W. C. West) h148

*, illustrated; l, letters; e, editorials; h, hints; n, news notes; a, abstracts.

334478

Page

Allegheny River bridge plan approved. n1200
Amer. Ry. Bridge & Bldg. Assn. on standard work and repairs. 754, n776
Bessemer and Lake Erie new bridge rolled into place. n292, e346
Bridge aqueduct over Big Horn River (Wyo.) (F. C. Emerson). *761
Bridge built in eight minutes by Army Engineer School in France (R. K. Tomlin, Jr.). *114
Bridge shop fabrication for new steel ships *5
Builders report 27% of capacity taken. n1204
Camden bridge terminals recommended by W. P. Laird. 1134
Cofferdams, circular steel, braced by old steel rail hoops in Guatemala. h*148
Concrete arch of Des Moines bridge altered to carry steam pipe. *26
Concrete pier built in thick ice in Hudson River h376
Construction marked by foundations, forms and concrete distribution (E. W. Stearns) *68
Continuous bridges undesirable (M. R. Strong) 1*506
(See also 346)
Continuous span and structural efficiency e346, l 506
Continuous truss bridge on Nelson River. *388
Derrick car places deck slabs of concrete bridges *307
Diagram showing weak members to be reinforced (T. A. Smith). 1*1092
Drawbridge operators should see entire moving span e385
Economies of repair and replacement (C. A. Morse) 800
Erie R.R. uses old steel bridge spans for road bridges *320
Equivalent uniform loads for indeterminate structures (D. B. Steinman). . . . *231
Feasibility of a bridge across the Mississippi at New Orleans. n293
Field work on bridges in camp. *14
June floods damage Iowa bridges. *500
Lever and street car pull sheet piles. . . . h55
Luten patent decision upheld. n1200
Lyons new bridge named the "Wilson". . *399
Marne bridges built with German materials (R. K. Tomlin, Jr.). *798
New impact formulas needed for designs (J. A. L. Waddell). 924
N. Y. State must not interfere with Hudson River projects. e159
Old materials used by Penn. R.R. for highway crossing in Jersey City. . . . *538
Plank trusses carry streets over depressed tracks *369
Portland (Me.) draw pier settles. 571
Primitive construction methods still needed e922
Renewal by rolling done in fast time. n1198
Shop fabrication adapted to large freighters *853
Sciotoville erection experiences (C. B. Pyle) *1182
Skew subway bridges require special design for Chicago and N. Western Ry. . *540
Stress measurements on Niagara gorge railway bridges (C. E. Fowler). . . . *1172
Tour over New Orleans new canal. *304
Utilize full life of old light railway bridges (C. F. Loweth). a858
Virginia inserts new payment clause in bridge contracts (W. R. Glidden). . . . 1 192

British labor demands e565
British Educational Mission. n1098
Broomed treads of full points trimmed. . . h731
Brown, Leon R., on shore soundings in Niagara River *634
Brown Univ. cuts engineering course to three years. e346, 354
Buffalo asphalt repair records (Babcock and Vandewater) a664
(See also 686)
Good start in reducing water waste. . . . e1055
Reduces cost of street cleaning (W. F. Schwartz) a663
Samples and tests, concrete base (G. F. Fisk) *665, 686
Water waste survey (G. C. Andrews). . . 1033
Building industries convention in Atlantic City e157

BUILDINGS

Chicago church steel construction. *860
Concrete houses built without forms. . h*1043
Foreign demand for Amer. ready-built houses n782
Govt. costs on both concrete and wood office buildings 898
Building interests organize for war service n155
Building work shrinks more than half since 1914 . . . . . n517
Cement gun used to make concrete walls in wooden mill in Col. h*375
Building codes not uniform (R. Fleming) 579
Industries active in Washington (W. B. King) n561
(See also 429)
N. Y. Evening Post building, difficult alterations in *610
Rapid construction meets army needs. . . e697
Revolving, 100-ft. crane erects. h*1093
Standardized terminals on Gt. Northern have coaling stations and water treating plants *439
Walls and roof placed before second floor concrete was placed. *354
Wire lath fireproofed by baking on terra cotta blocks. n*341

Page

Buisman, A. S., on cast pick-up bars in concrete piles in Java. h*377
Bull, George M., on timber plank facing for leaking dam *229
Bullet in the head, A. e297
Bureau of Public Roads, vacant directorship e1155
Burt, E. A., on covering old macadam roads with concrete. *943
Business methods of the states in South America e344

C

Cahen, A. J., on pistol grip handle for tape h*418

CALIFORNIA

Concrete, inclined, sea wall. *897
California diverts rivers to protect harbors h1144
Flood run-off data on dry-wash channels. *531
Irrigation district plan popular. 850
Land Settlement Board selective work e1013, *1014
New waterpower plants. n795
Oiled macadam roads resurfaced with concrete (E. A. Burt). *943
Yard of Bethlehem Shipbuilding Corp. . *1020

Camps, construction, on Miami flood work, model towns. *575

CANADA

Canal to new Niagara River powerhouse *101, 821
Joint development of St. Lawrence power suggested n1097
Protests power additions on St. Lawrence River n733
Railway systems merged n1050

CANALS

Algae growths increase value of *n* in Kutters formula (Paul Taylor). *179
All American canal for California. n196
686, 690, n733
Banks blanketed by hydraulic sluicing in Montana 911
Barges built in Ferguson yard. *839
Cape Cod canal taken over by Government n198
Copper sulphate controls algae growths in irrigation canal (R. K. Tiffany). . 1 462
(See also 179)
Erie canal aqueduct demolished at Montezuma (J. Y. Palmer). *769
Fast freight service on N. Y. barge canal n150
Government takes over New Jersey canals n151
Grand canal of China to be rebuilt by Americans n1049
Illinois and Michigan canal completed. . . n319
Imperial Valley work progresses. n768
Inland waterway progress is slow. e1
Lock on New Orleans new canal remarkable *304
Locks in Troy (N. Y.) show sand streaks caused by excess water in concrete. . . 534
Losses in terms of depth to quantity (P. A. Cupper) *220
Mississippi barge service not used by shippers e696
New Canadian Niagara development. *801, 821
New Orleans' new canal and harbor unique e297, *304
N. Y. State barge canal at Tonawanda (B. S. Voorhees). *893
N. Y. State barge canal not used by shippers e696
N. Y. State canal to have concrete barges *271, n293
N. Y. State canal to have 500-ton towboats *271, n293
N. Y. State canal use in 1918. . . . . e1105
Old Illinois and Michigan canal to be improved for barge traffic. n128
Seattle canal and lock. e297
Seepage inevitable, drainage needed. e253
(See also 237)
Steamer turned on side passes through canal n1201
Water company wins in Imperial Valley (Cal.) case 237

Cantilever runways on central girder easily moved on Phila. elevated. h*865
Car-building plant to cost $2,000,000 projected n1204
Car dumper at Virginia coal pier handles two cars at once. *1086
Carpenter, G. W., on saving water and conserving coal a529, 556, 558
Carpenter, J. S., on waterproofing of drawings and tracings. h597

CEMENT

Bag filing, counting and bundling good economy h596
Bags tobogganed down roller chutes in Chicago h145
Cement, sand and gravel weighed for concrete dams (H. H. Hunt). *393
Extra strong and plastic for concrete ships 21
Strength of concrete depends on relation of cement to total aggregate. *317
Wagon with hopper gate handles bulk cement on paving job. h*467
Water wells in rock formation easily grouted (W. G. Kirchoffer). *367

Page

Center of gravity of stock piles economically important (C. S. H.). h553
Chain, cast steel anchor, developed to meet war need 129
Chapin, Roy D., on highway transport. . . a1146
Charts show contents of cylindrical tanks without computation (E. E. Glass). . h*642

CHICAGO

Chicago Assn. of Commerce to study zoning and return load problems. e345
Big army depot construction illustrates good co-ordination *300, h*334
Central manufacturing district growing. . 120
Engineering salaries not adjusted to cost of living n371
Ill. Cent. R.R. new hump yard. *313
Introduces new chlorinators in pumping stations (John Ericson). *1126
Opposing water meters. e432
Parks made of dump refuse. n725
Sewage disposal problem (C. D. Hill). . 1127
Telephone Co. concrete floor construction new *677
War Committee of Technical Societies to continue 1141
Water distribution under engineering supervision 534
Water waste criminal e385
(See also 407)
Waterworks tower in development plan. . 936
Chinese grand canal to be rebuilt by Americans n1049
Chloramine reduces bacteria in Denver water n578
Chutes and conveyors for short distances pay (C. S. H.) h508
Cincinnati high school framing plans expedite work (J. T. Sullivan). *355
City planning and public safety (Adams, Thomas and Bartholomew, Harland). . a572
Clamp, extension, to draw shaft keys. . . . h*243
Clark, H. W., on progressive mixing of sewage *930
Clay mud used to pack joints in sewer pipe while pouring with asphalt. . . . h554
Cleared areas measured with planetable and planimeter (E. P. Arneson). 1 864
Cleveland Eng. Soc. with Amer. Assn. of Eng. n372
Sewage treatment (H. P. Eddy). . . e785, 806
Will have work for every returning soldier e253
(See also 36)
Clifford, Walter W., on use of standard blanks for concrete computations. . . . *590

COAL, OIL, OTHER FUELS

Coal transfer car—120 ton. *1088
Electricity for Cal. railroads to save fuel oil 941
Feeding mixer with screw conveyor for pulverized coal n*693
Gasoline used shows value of good roads for trucks (A. N. Johnson). *843
Fuel mixer operates under 6-oz. pressure n738
Fuel situation in New England (C. T. Main) 530, 556, 558
Future oil supply from shale deposits. . . n738
New Eng. and Phila. in fuel saving campaigns (C. E. Davis) 1 329
New liquid fuel developed by army engineer n1052
Oil reservoirs circular, concrete lined and roofed (C. E. D. Cole). *932
President's warning of fuel crisis. . . . n*340
Rationing of coal includes factories and homes n*155
Save water and conserve coal (G. W. Carpenter) 529, 556, 558

Codes, ethics of right living basis of engineers' code 863
Arizona water code proposed. 953
Cole, D. W., on high pressure gates in reservoir dams. *880
(See also 945)
Cole, E. D., on circular concrete-lined oil reservoirs *932
Colorado Midland R.R. ordered junked by Court 984
Colorado River studied by engineers. 686, 690
Colorado uses sand and snow fences on state roads *800

COMMISSIONS

Advisory to Govt. Ry. Administration. . 504
Akron (Ohio) votes for commission manager 917
Alaska Engineering Commission. n907
Awards of International Joint Waterways Commission protested by Canada. n733
Boston new Transit Commission. n513
Boston Transit Commission completes subways e344
Cal. Commission on right of municipality to condemn utility properties. e475, n983
Irrigation District Pond Commission. . 851
Water Commission 795
Cleveland City Planning Commission will have work for returning soldiers. . . . e253
(See also 36)
Commission control and credit hazard (E. I. Lewis). 1505
(See also 255)
Commission control, does it remove the hazard of investment. e255
Illinois publishes cost of hard road maintenance 984
Indiana commission decision in water rate case modified (Leonard Metcalf). 1134
International Joint Commission on sewage disposal e853, 660, 686

*, illustrated; l, letters; e, editorials; h, hints; n, news notes; a, abstracts.

Page

Interstate Commerce Commission 277
Jersey City Commissioner of Finance and Revenue on efficiency engineers.....e253
Joint commission wishes study of port of New York e386, 397
Maryland State Roads Commission..... 284
Mich. State Roads Assn. meeting..... 591
Minnesota State Highway Commission.. 281
Natl. War Garden Commission of Washington n985
N. Y.-N. J. Port and Harbor Development Commission e386, 397
N. Y. State Commission on hazards of construction e298
Overman bill creating Commission on Reconstruction e695
Railroad Commission of California on meter rates 247
Regulatory bodies on trial e255
St. Paul City Commission refuses to approve plot lay-out 966
Sioux City Plan Commission 797
Wisconsin Board rejects reproduction cost less depreciation 357

COMMITTEES

Amer. Engineering Standards Committee, proposed constitution 76
A. S. C. E. Committee on Development (C. Derleth, Jr.) .....l 329
A. S. C. E. Development Committee appointed e651, 658, *688
Canadian Engineering Standards Committee organized n379
Capital Issues Committee..n117, 336, e921, 1046
Capital Issues Committee could aid in Garbage saving.....e343
Hampers Highways Council.....e298
Will coöperate with U. S. Highways Council n425
Chicago Technical Societies War Committee to be continued.....1141
Committees and councils not effective.. 47
Concrete Institute Committee reports....48, 57, 59
Development Committee of A. S. C. E. (Discussed by Gano Dunn, Fred Laxis, P. N. Moore, F. F. Sharpless and F. P. Stearns) 134
Development Committee proposed by A. S. C. E.....135, 239
Education and Special Training.....e111
Engineering Council War Committee needs inventors 371
Federal Transport Committee n1050
Highway Industries War Service and Reconstruction Committee n1053
Highways Transport Committee 599
On use of trucks..... 103
Work of 916
Imperial Earthquake Investigation Committee 327
Industrial Concrete Housing..... 57
Inland Waterways Committee e1
Natl. Research Council Committee outlines reconstruction problem....e475, n511
N. Y. State has permanent Highway Transport Committee n336
Ohio District Capital Issues Committee vs. U. S. Highways Council....e344, 352
Post Offices and Post Roads..... 90
Ry. Executives Advisory Committe resolutions n1097
Railway security owners 218
Specifications Committee of Amer. Soc. of Munic. Improvement 691
War Burdens Committee....e297, e299, 308
War Service Board Committees 811
Yards and Terminals Committee of Amer. Ry. Eng. Assn., report.....e607, 615
Young Men's Committee of Western Soc. of Eng. on engineering salaries.....n371

Compressed air hose breakage reduced....h821
Separator n203

CONCRETE (Aggregate)

Aggregate is critical element in fire resistance of columns 49
Compressing increases strength one-half (F. P. McKibben) *1031
Effect of time of mixing on strength and wear (A. S. T. M. convention)..... a49
Four sizes of aggregate used in Cal. dam n732
Great Britain builds ships of..... 578
Mechanical supply of aggregate for Michigan road h*465
Mixture for barges 707
Rapid agitation of aggregate, dryer mixtures, with road finisher.....n*383
Sand, how treated for organic matter (S. A. White) .....l 283
Sand streaks on, caused by excess water, n534
Three-stage mixer proposed (F. B. Walker) .....l 595

CONCRETE (Construction)

A. T. & S. F. Ry. crossings have concrete base n*44
Barge building in Providence.....*704
Base track of Northern Pacific railroad e1055, *1071
Brick pavements resurfaced with asphaltic concrete in Topeka.....*444
Bridge arch at Des Moines altered to carry steam pipe *26
Bridges, Luten patent decision upheld..n1200
Caissons launched like ships.....h*287
Cast pickup bars aid in handling concrete piles in Java (A. S. Buisnan).....h*377
Casting plant, small, on Chicago job....h*98

TRAFFIC AND TRANSPORTATION

Are there alternatives to motor trucking? e109, 142
Boston Transit Commission completes its work e344
Car movement believed to establish world record n1199
Freight routes on highways with trucks and trailers n*106
Guide of Department of Interior *890
Maryland motor truck freight traffic, enormous increase 224
Mich. regulates traffic on one-way roads on Sundays and holidays (E. N. Hines) a 59
Minnesota interurban bus service. *281
Motor Truck Assn. discusses late N. Y. City ruling n825
New era in transportation. e1156
N. Y. City dual subway system opened e254, n*289
N. Y. City to regulate traffic by zones. . e475
N. Y. State Highway Traffic Association on snow removal. 916
Present road construction inadequate. . . 233
Railroads vs. motor vehicles (W. K. Trippet) l 1142
Rail wagon lessens freight handling. . . n*783
Rural expresses urged by Highways Transport Committee n599
Safety isles removed from Fifth Ave., N. Y. City n1120
Save engineers' time by motor transportation e431
Solution of highway transportation problem (H. W. Skidmore) l 416
Trunk Highway Association formed. . . n1200
Transit built mostly of wood (W. G. Peters) l*283
Trenton (N. J.) reservoir cleaned by use of Ford car *996
Trestle timbers sawed in big miter box on car h*97
Triple scarf in dry dock timbering (W. T. Donnelly) h*377
Tripp, Brig.-Gen. Guy E. *605
Trunk Highway Association formed. . n1200

TUNNELS

Feasibility of a tunnel under the Mississippi at New Orleans n206
Flow in Chicago tunnels tested by salt solution 445
Gas makes trouble on the Marin municipal water project n262
Hudson River vehicle tunnel, federal aid for e110
Milwaukee sewer tunnel contract defaulted 910
Mount Royal tunnel opened to traffic. . n645
Santa Barbara (Cal.) unique tunnel. . . n649
(See also 642)
Seventeen tunnels and a 12-mile gorge in twelve miles of railway. *365

TYPHOID

Chicago tunnel service delayed by presence of bacilli n595
Milwaukee water bad taste and the typhoid incidence e520
Terre Haute (Ind.) typhoid not due to city water n657

U

Unique Irrigation System (Lindsay (Cal.) *Gazette* 141

U. S. ARMY

Boston supply base rapid foundation work *584
Boston supply base a valuable permanent port terminal *522
Camp sewage works to be enlarged. e297, n336
Cantonment construction chart (Francis Donaldson) 536
Conservation and reclamation, Division of 25
Emplacement of new German 75-mile gun, captured n*425
Enlisted Reserve Corps. e111
Influenza-pneumonia in camps (Maj. G. A. Soper) 1171
John Erskine on after war education of student soldiers 872
Gun relining plant to be built in France. n378
Intermediate depots in France (R. K. Tomlin, Jr.) *478
Nineteen warehouses built in French beet sugar fields (R. K. Tomlin, Jr.). . *27
Organizes bureau to dispose of surplus property n1200
Porto Rico camp designed for tropical conditions *85

Page

Quartermaster's depot in Chicago example of coordination in construction. e299, *300, h*334
Saving large in recent coal contracts. n112
Spruce Production Division. . . . e1009, *1023
Students' Army Training Corps. . . . e111, 1065
Supplies, surplus stock and finds utilized by govt. n738
Supply depot in Chicago huge concrete building (A. Epstein) *269
Training engineer officers at Camp Lee (F. C. Wight) *12
Warehouse construction rapid to meet army needs e697
War has increased the Army Corps. . . . 85
Water Transport Branch contracts for small vessels only. e254, n291

U. S. Bu. of Aircraft Prod., J. D. Ryan, director e431, 468
U. S. Bu. of Standards to have supervision of state research in engineering and agriculture n1096
U. S. Bu. of Standards' meter to measure elasticity modulus of concrete (H. A. Davis) *710
U. S. Coast and Geodetic Survey, Texas record rapid n751
U. S. Consulate, after war, need of. . . . n788
U. S. Dept. of Labor Housing Boards and recent programs. n292, n295
U. S. Employment service. 62
Engineers' Division n372
U. S. Food Administration survey of garbage collection and disposal (M. N. Baker) 715
U. S. Forest Service builds trails in mountains *539
U. S. Fuel Administration to cement manufacturers n428
Starts coal drive. n*649

U. S. GOVERNMENT

Agencies are barring construction work e477
Broad engineering aspects of government operation of railroads (C. W. Stark). . 23
Bulletins I. and II. on submarines sent to Eng. Council War Committee. 371
Bu. of Industrial Housing and Transportation of Dept. of Labor. 122
Census accuracy, threatened. e519
Compensation of engineers for war work (City Engineer) l 819
Concrete and wood office buildings built by Army Const. Div. 898
Draft registration, selective, thirteen million e519
Efficiency of railroad operation (T. H. Price) a564
Federal administration asked to authorize completion of Grand Trunk Ry. e206
Federal aid asked for Hudson River tunnel e110
Federal bill to enlarge central power plants n420
Federal operation of Texas railroads (Former Gen. Mgr.) 622
Industrial housing needs the engineer. . . e158
Mammoth concrete buildings in Washington use eight mixing plants. *21
Organization of railroad administration. *502
Pooling of sand, gravel and stone resources to be permitted (Wingrove Bathon) n382
Rural express and mail service. 1003
Sec. D. F. Houston on govt. aid toward national highways e1010, n1045
Shipbuilding plant construction chart (Francis Donaldson) 537
Sims bill will aid in developing power for war needs. e475, n512
U. S. Employment Service. n295
U. S. Shipping Board. 122
University of Uncle Sam. n420
War Industries Board. n295
War Labor Policies Board. n295
War Power Plant bill in Committee. n420, n469

U. S. Highways Council 468
Highways Council vs. District Capital Issues Committee e344, 352
U. S. Navy drydock at Honolulu, unique and rapid construction of. *173
U. S. Parcel Post results from motor truck service *90
U. S. Public Health Reserve authorized. . 960
Service to stamp out influenza. e607
U. S. Reclamation service engineers study cut over lands and drainage in Southern District n645
(See also 361, 469)
Investigate swamp and cut over lands. . n361, n469
Levels lands for settlers (P. N. Cronholm) *438
Porous canal banks blanketed by hydraulic sluicing 911
Study reconstruction problems. . . . e343, 361
U. S. Shipping Board call for efficiency. e879
Controls all shipbuilding in states. . e254, n291
Plans for concrete barges for N. Y. State canal *271
Urges more consuls. n782
Urges study of new merchant marine. . n428
U. S. Steel Corp. accepts 8-hour day. . . . e695
U. S. Valuation Bureau still practices coercion e386
U. S. War Department plans announced for Student Training Corps. . . . n149, n151
Purchasing control centralized. n246
U. S. War Industries Board. 561, 920
Common sense and essential industries. . e476
Uruguay has American built sewers and waterworks in three cities (A. A. Northrop) *401
Utah gravel road across Salt Lake Desert *1191
